A plan identifying each landholder and individual land parcel subject to the lease area, and a description of the lease area must accompany the notice.
- (b) If there are ten or more landholders, the lease holder may serve the notice by publication in a newspaper circulating in the region where the lease area is situated. The notice must indicate that this mining lease has been granted/renewed; state whether the lease includes the surface and must contain a plan and description of the lease area.   - (ii) details the staging of specific mining operations, mining purposes and prospecting;
  - (iii) identifies how the mine will be managed and rehabilitated to achieve the post mining land use;
  - (iv) identifies how mining operations, mining purposes and prospecting will be carried out in order to prevent and or minimise harm to the environment; and
  - (v) reflects the conditions of approval under:
    - the *Environmental Planning and Assessment Act 1979*;
    - the *Protection of the Environment Operations Act 1997*; and

- any other approvals relevant to the development including the conditions of this mining lease.

- (i) provide a detailed review of the progress of rehabilitation against the performance measures and criteria established in the approved MOP;
  - (ii) be submitted annually on the grant anniversary date (or at such other times as agreed by the Minister); and
  - (iii) be prepared in accordance with any relevant annual reporting guidelines published on the Department's website at [www.resources.nsw.gov.au/environment](http://www.resources.nsw.gov.au/environment).
